2026 RUNNING PRENDA PERFOMANCE

2026 MPA PERFORMANCE

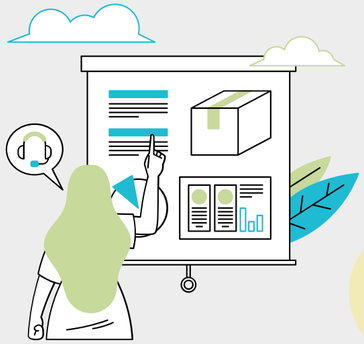

The MPA performance shows a consistent upward trend from March to September 2026, increasing from 1.54 to 2.23. The most notable improvement was observed in August, reaching 2.05, and continued to increase to 2.23 in September. The September figure is based on self-monitoring. Overall, the data reflects continuous improvement in MPA performance throughout the period.
